### This week's recommended read

A thousand years ago, a tiny acorn fell to the ground. As the years pass, it grows ... and GROWS into an enormous oak tree!

As the centuries sweep by, children play games around the tree. Families dance about it. A fleeing king even hides inside its hollow trunk!

The tree gives food and shelter to a host of animals, from squirrels and badgers to birds and beetles.

After a thousand years, the ancient tree finally falls in a storm - but a new acorn sprouts, and the cycle of life begins all over again.
